

***Come and watch the spectacle in the making on 40 Byth Street, Arundel: Tree clearing – Sunday Sept 27<sup>th</sup> 2015 at 8:30am***

Following the spectacular advances in the last few weeks, and council approval for tree clearance, we would like to commence preliminary work on the land. As a first step we have engaged tree loppers from Brisbane to do the honours. They are all doing this gratuitously. The first phase of this clearing would involve clearing the land to do the soil test and bring in the infrastructure services. This phase would include clearing the service road pathway and pathway to borehole location. Please come and watch the spectacle unfold on this Sunday, Sept 27<sup>th</sup> 2015 at 8:30am. If you are brave, you can also join the tree loppers. All are cordially invited!

⊗ PROPOSED BOREHOLE LOCATION

Survey work being done:

Building Certifier (left) and a local builder/architect/well wisher- Mr. Gerard Cabraal (right) with two committee members (middle):
